Overview

Construction activities have been progressing well on the Union Avenue project. The contractor will continue pavement removals and concrete work over the next weeks. Once these items are complete, milling and overlaying the bituminous pavement will take place.

Alert

Crews will be working close to the traveled lanes on Union Avenue near Stanton. Please use caution when driving through the work zone while crews are present.

Impacts

Access to businesses directly on Union Avenue will continue to be impeded by the project. The Stanton Avenue and Washington Avenue intersections will be closed to traffic for curb and gutter and sidewalk construction. Crews are working to minimize the affected area as much as possible. If a special need arises, please do not hesitate to reach out to Jamie Rasmussen.

Contacts

Jamie Rasmussen will be on site throughout the summer and will serve as the primary contact during construction. Jamie can be reached at 701-429-3794 or Jamie.Rasmussen@bolton-menk.com. Informational newsletters, such as this one, will be posted to the City website throughout the summer.
